

Lyric Theatre in Oklahoma City, OK, seeks four overhire positions for its production of A CHRISTMAS CAROL. These positions will report to the Production Electrician, Technical Director, and the Production Manager.

November 4-20 will be weekday daytimes (8a-5p or 7a-4p).

November 21 and 22, weekend daytime and evening hours

November 24-December 26, evening hours and weekends with the exception of a morning performance on December 9.

Please submit a cover letter and tech resume to Matthew Sipress at matthew@lyrictheatreokc.org by October 5, 2026.

Spot Op 1 and Spot Op 2

Contract length: November 10 - December 26

Ideally, we are looking for applicants with prior spot op and hang/focus experience.

Pay starts at \$15/hr for spot-op only or \$17/hr for spot-op plus hang/focus positions and may increase commensurate with experience.

Responsibilities include but are not limited to:

- Assist the Production Electrician in the execution of lighting designs including hang, focus, and maintenance
- Maintain the cleanliness, organization, and safety of the dimmer room, lighting closet and grid, and other lighting spaces
- Assist with general electric notes throughout the tech and performance process

Qualifications:

- Experience in professional theatrical lighting. A combination of education and professional experience will be considered
- Knowledge of basic lighting practices and intelligent LED fixtures preferred
- Experience with wiring and soldering, especially as they relate to incandescent practicals and LED tape preferred
- Excellent communication and organization skills
- Thorough knowledge of theatrical safety conventions
- Strong problem-solving skills and the ability to approach challenges collaboratively
- Proficiency with hand and power tools
- Comfortable working at heights in excess of 20 feet in a lift and on a tension mesh grid
- Ability to safely lift 50lbs

Deck Electrician/Fly Operator

Contract length: November 4 - December 26

Pay starts at \$17/hr and may increase commensurate with experience

Responsibilities include but are not limited to:

- Assist the Production Electrician in the execution of lighting designs including hang, focus and maintenance
- Operate onstage practicals, atmospherics, and special effects

- Maintain the cleanliness, organization, and safety of the dimmer room, lighting closet and grid, and other lighting spaces
- Assist with general electric notes throughout the tech and performance process

Qualifications:

- Experience in professional theatrical lighting. A combination of education and professional experience will be considered
- Strong knowledge of lighting fixture operation and maintenance
- Knowledge of basic lighting practices and intelligent LED fixtures preferred
- Experience with wiring and soldering, especially as they relate to incandescent practicals and LED tape preferred
- Excellent communication and organization skills
- Thorough knowledge of theatrical safety conventions
- Strong problem-solving skills and the ability to approach challenges collaboratively
- Proficiency with hand and power tools
- Comfortable working at heights in excess of 20 feet in a lift and on a tension mesh grid
- Ability to safely lift 50lbs

Deck Crew/Fly Operator

Contract length: November 4 - December 26

Pay starts at \$17/hr and may increase commensurate with experience

Responsibilities include but are not limited to:

- Loading, assembling, and moving scenery.
- Maintain the cleanliness, organization, and safety of the shop and backstage area with the Deck Supervisor
- Assist with general scenic notes throughout the tech and performance process

Qualifications:

- Experience in professional technical theatre. A combination of education and professional experience will be considered
- Knowledge of basic stage crew practices
- Excellent communication skills
- Thorough knowledge of theatrical safety conventions
- Strong problem-solving skills and the ability to approach challenges collaboratively
- Proficiency with hand and power tools
- Comfortable working at heights in excess of 20 feet in a lift and on a tension mesh grid
- Ability to safely lift 50lbs
